## **Module 1: The Call to Create (Course Preview)**

### **Opening Story**

*David picking up five smooth stones...*

Every creator starts with a calling. Not a platform, not an audience, not even a clear plan. Just a stirring in the spirit that says, "This message matters."

## Core Teaching Points

1. **Calling vs. Platform** - God whispers before the world listens
2. **Message Before Method** - What you say matters more than how you say it
3. **Faithfulness in Small Things** - Your first devotional is practice for your legacy
4. **Sacred Strategy** - Aligning creativity with divine purpose

## Action Steps

- ☐ Write your origin story (why this message?)
- ☐ Identify your core Scripture anchor
- ☐ Define your intended audience
- ☐ Set your devotional length goal
- ☐ Choose your publishing timeline

## Reflection Questions

1. What experience led you to this calling?
2. What Scripture keeps coming back to you?
3. Who needs to hear this message?
4. What fears are holding you back?
5. How will you know when you're ready to start?
